PROFESSIONAL SUMMARY

Frontend Engineer with experience building and maintaining production web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Develops responsive, accessible interfaces; translates Figma designs into production-ready products; builds reusable component systems; integrates REST APIs and third-party services; and improves frontend performance across web platforms.

Contributed to 7+ live products across housing, education, consulting, and corporate environments, helping improve website engagement by approximately 25% and supporting better task completion. Skilled in modern Next.js development, including SSR, SSG, ISR, code splitting, and lazy loading, alongside SEO, WCAG accessibility, testing, debugging, and CI/CD workflows.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux, Context API

UI & Architecture: Responsive Design, Component-Based Architecture, Reusable Components, Design Systems, Figma-to-Code, Cross-Browser Compatibility

Performance & SEO: SSR, SSG, ISR, Code Splitting, Lazy Loading, Web Performance Optimization, Lighthouse, SEO Best Practices

Accessibility & Testing: WCAG, Jest, React Testing Library, Debugging, Chrome DevTools

APIs & Integration: REST APIs, JSON, Authentication, Third-Party Services, Frontend/API Integration

Tools & Deployment: Git, GitHub, Vercel, Netlify, Azure App Services, Docker, GitHub Actions, Azure DevOps, Postman, Trello, npm

PROFESSIONAL EXPERIENCE

MSWITCH GROUP (Techspecialist Consulting Limited) — Frontend Engineer

Abuja, Nigeria | Jan 2026 – Present

- Build and maintain production web applications using React.js, Next.js, TypeScript, Tailwind CSS, Context API, and Redux, focusing on responsive interfaces, maintainability, and scalability across corporate web products.
- Develop reusable frontend components, UI patterns, and design system elements used across 4+ corporate websites.
- Built and launched a website for the company's CEO, kadirsalami.com, achieving a Lighthouse score of 100.
- Translate Figma designs and product requirements into responsive, accessible, production-ready interfaces across desktop, tablet, and mobile.
- Integrate REST APIs, authentication flows, and third-party services to support dynamic application workflows.
- Apply SSR, SSG, ISR, code splitting, and lazy loading where appropriate to improve frontend performance and application maintainability.
- Implement accessible interfaces following WCAG principles and responsive design practices.

- Deploy and maintain applications using Vercel and Azure App Services, supported by CI/CD workflows implemented with GitHub Actions.
- Debug and resolve frontend issues using Chrome DevTools and browser debugging tools, while investigating performance and UI problems.
- Collaborate with designers, developers, project stakeholders, and other team members throughout the development lifecycle.

SHAMZBRIDGE CONSULT — Frontend Developer

Abuja, Nigeria | Jun 2024 – Dec 2025

- Developed responsive websites and web applications for consulting, education, housing, and corporate clients using React.js, Next.js, TypeScript, and Tailwind CSS.
- Contributed to the delivery of 5+ live products, building reusable components and responsive layouts across different products and use cases.
- Improved website engagement by approximately 25% by developing responsive interfaces, optimizing performance, applying SEO practices, and streamlining user flows.
- Built reusable frontend components for mortgage calculators, housing data presentation, content-driven pages, and interactive interfaces.
- Implemented Next.js rendering and optimization techniques including SSR, SSG, ISR, code splitting, and lazy loading.
- Integrated REST APIs and frontend services to support data-driven interfaces and application workflows.
- Worked closely with designers, project managers, developers, and clients to translate requirements and Figma designs into functional web experiences.
- Used Git, Figma, and collaborative development workflows to manage implementation and deliver product features.
- Applied SEO and accessibility best practices to improve usability and cross-device experience.

SELECTED PROJECTS

HMIP — Housing Market Information Portal

[Live Project](#) | React.js | Next.js | TypeScript | Tailwind CSS

- Contributed to the frontend development of a live housing market information portal for the Nigeria Mortgage Refinance Company (NMRC), delivering user-facing features as part of the frontend team.
- Developed reusable mortgage calculator components and responsive interfaces for housing and market information.
- Implemented WCAG-focused UI patterns to improve accessibility and usability.
- Contributed to a 25% improvement in task completion by implementing responsive frontend workflows and user experience improvements.

NECA ICT Academy

[Live Project](#) | React.js | Next.js | TypeScript | Tailwind CSS

- Contributed to the frontend development of an education platform focused on learner enrolment, programme discovery, and digital learning experiences.
- Developed responsive interfaces supporting onboarding and programme discovery for 500+ learners.
- Built reusable UI components to maintain consistency across the platform.

Studio3 Launchpad

[Live Project](#) | React.js | Next.js | TypeScript | Tailwind CSS

- Contributed to the frontend of an EdTech platform focused on course discovery and learner experience.
- Developed responsive course discovery interfaces and supported the platform's information architecture.
- Delivered frontend product improvements that supported 40% cohort growth.

EDUCATION

Nigeria Certificate in Education (NCE), Computer Science / Physics
Kwara State College of Education, Oro | 2021 – 2024

CERTIFICATIONS

[Microsoft Certified: Azure AI Apps and Agents Developer Associate \(AI-103\)](#)

Microsoft | 2026

Frontend Developer — Cohort 5
TIIDELab Initiative | 2023
