SUMMARY

Frontend Engineer with 3+ years building production web applications using React.js, Next.js, and TypeScript. I help organizations improve user experience and operational efficiency through scalable frontend architecture and AI-powered automation—recently reducing manual workflow effort by 30% through Azure AI integration. Experienced in shipping enterprise products across consulting, education, and housing sectors while collaborating with cross-functional teams throughout the development lifecycle.

EXPERIENCE

Techspecialist (Mswitch Group) – Business Automation Associate – Abuja

Apr 2026 – Present

- Built AI-powered automation workflows using Azure AI that reduced manual processing time by 30% across HR and operations teams.
- Architected and developed an enterprise AI recruitment platform that automates candidate screening, CV evaluation, and first-stage interviews, allowing HR teams to focus on qualified candidates.
- Built AI-assisted business workflows using Microsoft Azure AI, improving process consistency, operational efficiency, and decision-making.
- Collaborated with HR, product managers, executives, and cross-functional teams to identify automation opportunities and deliver scalable digital solutions.
- Researched emerging AI technologies and translated business needs into production-ready automation systems.

Mswitch Group – Frontend Developer / Technical Support – Abuja

Jan 2026 – Apr 2026

- Developed and maintained scalable frontend applications using React.js and Next.js.
- Designed and launched the executive corporate website (kadirsalami.com) to strengthen executive branding and online visibility.
- Built reusable frontend components that accelerated development and improved maintainability.
- Implemented responsive and accessible user interfaces that enhanced user engagement across desktop and mobile devices.
- Provided technical support, troubleshooting, and system maintenance to improve platform reliability.
- Worked closely with designers and stakeholders to deliver high-quality frontend solutions aligned with business goals.

Shamzbridge Consult – Frontend Developer – Abuja

Jan 2024 – Dec 2025

- Developed responsive web applications and corporate websites for organizations across consulting, education, and professional services.
- Improved website engagement by approximately 25% through responsive UI implementation, performance optimization, and improved usability.
- Built reusable frontend components that improved consistency across multiple projects.
- Integrated frontend applications with backend APIs to provide seamless user experiences.
- Applied SEO best practices and performance optimization techniques to improve visibility and loading speed.
- Collaborated with project managers, designers, and clients throughout the project lifecycle.

TIIDELab Initiative (Cohort 5) – Frontend Developer Trainee – Abuja 2023 – 2024

- Completed an intensive frontend engineering program covering React.js, JavaScript, responsive web development, Git workflows, and software engineering best practices.
- Built multiple responsive web applications using React.js while learning modern component-based architecture.
- Practiced collaborative software development using Git and GitHub.

Nigeria Certificate in Education (NCE), Computer Science / Physics Kwara State

College of Education, Oro

Developing AI Apps and Agents on Microsoft Azure (AI-103), Microsoft Certified

Frontend Developer — Cohort 5 (2023) TIIDELab

Initiative

PROJECTS

AI Recruitment Platform (Internal Enterprise Application)

Role: Frontend Engineer / AI Automation Engineer | Technologies: React.js, Next.js, Azure AI, JavaScript

- Built an AI-powered CV evaluation system that automatically analyses candidate applications.
- Developed an intelligent AI interviewer capable of conducting structured first-round interviews.
- Automated recruitment workflows, allowing recruiters to focus on final-stage decision-making.
- Collaborated with HR teams to transform manual hiring processes into scalable AI-driven workflows.

Housing Market Information Portal ([HMIP](#))

Role: Frontend Engineer | Technologies: React.js, Next.js, Tailwind CSS

- Developed reusable frontend components for mortgage calculators and housing data presentation.
- Improved accessibility and responsiveness across desktop and mobile devices.
- Simplified complex housing information into intuitive user interfaces.

Techspecialist Limited ([TechSpecialist — Executive Intelligence](#))

Role: Frontend Engineer / AI Automation Engineer | Technologies: Next.js, React.js, Tailwind CSS, Azure AI, Microsoft Power Platform

- Built and currently manage the Techspecialist Limited corporate website, positioning the company around executive intelligence, AI readiness, automation, and managed IT services.
- Developed responsive frontend sections for service-led content covering AI readiness assessment, workflow automation, executive dashboards, and Microsoft-powered digital transformation.
- Maintain and improve the website's content presentation, responsiveness, and user experience to communicate complex technology services clearly to public, private, and enterprise-sector clients.

NECA ICT Academy ([NECA ICT Academy | Empowering Nigeria's Future with ICT Skills & Employability](#))

Technologies: React.js, Tailwind CSS

- Built responsive interfaces supporting learner enrolment and program discovery.
- Improved accessibility, usability, and content presentation.

Executive Corporate Website ([Kadir Salami](#))

Technologies: Next.js, Tailwind CSS

- Designed and launched a professional executive branding website.
- Built responsive layouts optimized for performance and accessibility.

Studio3 Launchpad ([Studio3 Launchpad](#))

Technologies: React.js, Tailwind CSS

- Developed responsive UI sections for course discovery and learner engagement.
- Improved information architecture and user experience.

Shamzbridge Consult ([ShamzBridge | Expert Consultation, Capacity Building, and Project Management Services in Nigeria](#))

Technologies: Next.js, Tailwind CSS

- Built a corporate consulting website focused on lead generation and service visibility.
- Improved SEO and responsive user experience.
